September 26, 2012

Dear Mr. Dolan,

This letter is in regard to the most recent advertisement Congressman Jim Himes is airing on your station for his reelection campaign for Connecticut's 4th Congressional District.

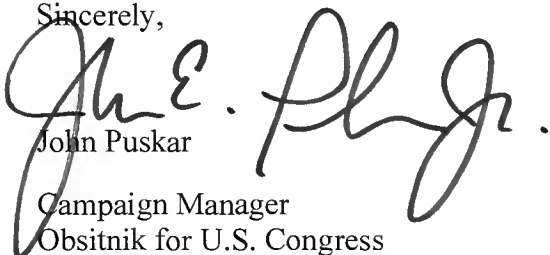

Without a doubt, the advertisement contains false information deliberately intended to mislead Connecticut voters and win votes under false pretenses. Because the advertisement conveys messages that are plainly disproven by fact, we respectfully demand that your station immediately stop airing the advertisement and that no further airings of this misleading content be allowed on your station.

At issue is Himes' claim that he is committed to "responsibly reducing our deficits". That is a patently false claim.

Simple arithmetic shows that since Congressman Himes took office in 2009, each year the federal budget has had trillion dollar deficits.

Your station is hereby on notice that the advertisement makes false statements intended to deliberately deceive Connecticut voters and grossly exaggerate Congressman Himes' record.

Sincerely,

John Puskar
Campaign Manager
Obsitnik for U.S. Congress

PS – There are possible copyright infringement issues based on Himes' use of the slogan "Forward" in his advertisement.
